SPRING, 1917

---

## NOTICE OF DISSOLUTION OF PARTNERSHIP.

Notice is given that the firm of Thomas Meehan & Sons was dissolved June 30th, 1916.

The Retail Department and Nursery at Germantown, Phila., and the Landscape Department at Mt. Airy, Phila., will be continued by S. Mendelson Meehan and J. Franklin Meehan, under the firm name of Thomas Meehan & Sons.

The Wholesale Department and Nursery at Dresher, Pa., has been taken over by Thomas B. Meehan and his son Albert F. Meehan, and will be conducted under the firm name of Thomas B. Meehan Co.

---

**CUSTOMERS** are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named, we forward to the best of our judgment, without liability for error or delay.

**RESPONSIBILITY.**—After goods are placed on board cars here, we assume no responsibility for their safe or prompt delivery, or any injury caused by delay in delivery by the transportation company.

**ALL CLAIMS must be made upon receipt of goods.**

**TERMS CASH**, on or before delivery to express or railroad agents, unless by special arrangement.

**Two hundred and fifty**, twenty-five or five of any one variety will be furnished by the thousand, hundred and ten rates, respectively, but single plants of one or more varieties will not be sold at less than 15 cents each, except Vines and Herbaceous Plants, the minimum price of which will be 10 cents each.

**PACKING CHARGED EXTRA**, but only sufficient to cover cost of time and material consumed in the work.

**POST OFFICE ORDERS** payable at Dresher P. O., Montgomery County, Penna.

**WESTERN UNION TELEGRAPH, AMBLER, PA.** Use Nurserymen's Telegraphic Code or "A B C" Code, 4th edition.

**VISITORS** are always welcome and should take train at the Reading Terminal, 12th and Market Streets, Philadelphia, for **Camp Hill Station**, or at Broad Street Station, Pennsylvania R. R., for **Fort Hill Station**. Be sure that the train stops at these stations.

**NOTICE.**—It is necessary that you should **TELEPHONE** us (Bell Phone, Ambler 226-W; Keystone Phone, Jenkintown 652-Y), in advance of your coming, so that we can send a carriage to the station for you. Our office is  $2\frac{1}{2}$  miles from either station.

---

## CERTIFICATE OF INSPECTION

Our nurseries are inspected several times each year, by inspectors of the Entomological Division of the Department of Agriculture of the State of Pennsylvania, and are free from insect pests and diseases. A certificate of the Department is attached to all shipments, and will also be furnished to customers if desired.

# Deciduous Trees

It is an old saying that "The best is the cheapest in the long run" and this applies probably more nearly to nursery stock than any other thing. The difference in price between a poor tree and a good tree is comparatively little, only a few cents, but the results cannot be measured in dollars and cents.

Our trees are frequently transplanted, to establish a good root system, they are "staked" so that every tree is grown with a perfectly straight trunk and the heads of the trees are kept pruned into symmetrical shape. Our soil is heavily fertilized and the trees are given constant cultivation and no effort spared to produce the very best quality. These facts should all be taken into consideration when comparing our prices with those of other nurseries.

## Meehan's Globe Head Mulberry

Introduced by us last spring for the first time.

We are frequently asked as to its hardiness. It is a "sport" of the Russian mulberry, and will stand any climate where the Russian mulberry will grow.

It is as hardy as the Tea's Weeping Mulberry and more attractive and better than Catalpa Bungei.

Supply for this year limited. Place your order early to insure delivery.

Price, two year heads 85 cents each.

---

Geneva, New York, September 17, 1915.

Thomas Meehan & Sons,  
Dresher, Pa.

Gentlemen:—

Regarding the new Globe Headed Mulberry which you sold us last spring, would say that we consider this tree a decided acquisition, especially for use in formal gardens. The fact that it can be kept small makes it more suitable than the Catalpa Bungeii for certain situations. We believe it is perfectly hardy, and we expect to propagate it largely.

Very truly yours.

W. & T. SMITH COMPANY.

## Revised List of HYBRID RHODODENDRONS

All Full, Bushy Plants. Well set with Flower Buds.

At the time of going to press with our catalogue the indications were that we might not receive our importations, owing to cessation of steamship sailings. Later our stock came in, and the plants are now on hand.

<b>Album elegans</b> , white		Per 10

#### **HYBRID RHODODENDRONS**

This illustration shows the character of our 4 to 4½ feet specimen Hybrid Rhododendrons.

These plants are heavily set with flower buds,—and measure 3 to 4 feet broad.

In these specimen plants we have,—

*Album novum*, white

*Caractacus*, crimson

*Lady Armstrong*, rosy crimson

*Lady Claremont*, rosy crimson

*Md. Carvalho*, white

*Mme. Masson*, white, yellow spots

Price \$5.00 each.

### Buxus Arborescens

Suitable for edging. 10 to 12 inch grade. 7 plants fill 3 feet of hedge.

### **Kalmia Latifolia, Nursery Grown**

Note how much more bushy and compact these plants are as compared with "collected" stock.

## **Evergreens**

### **SEE ALSO EVERGREEN SHRUBS**

In no other class of nursery stock are prices usually so deceptive as they are in evergreens, because the height shown in the list gives no idea of the quality. Quality is represented by the bushiness of the plant and the number of times it has been transplanted, because transplanting is what produces the fibrous root system, so all important to an evergreen. Good feeding is also necessary to impart health, vigor and the rich color to the foliage.

Our aim is to produce the best. Health, vigor, good color and an abundant root system, and to accomplish this, we transplant our evergreens every two years into new, heavily manured ground.

All evergreens are dug with ball of earth and the ball sewed in burlap. The cost of this is included in the price quoted in the catalogue.

## Hardy Herbaceous Perennials Ornamental Grasses and Ferns

Our Herbaceous Department is in charge of experts, men who are thoroughly trained in the growing, handling and shipping of these popular plants. By a thorough system of propagation and transplanting our stock is kept in the highest state of perfection, so that every plant we send out is young, vigorous and brought to a condition where it will give the customer the best results.

In making comparison of our prices with those of other nurseries bear in mind the fact that our plants are mostly field grown clumps and not the small divisions usually supplied by other growers.

July to September, etc., indicates the period of flowering.

**JAMES H. BOWDITCH,**

**Landscape Gardening and Forestry,**

903 Tremont Building, Phone, Haymarket 1557,  
Boston.

Office Hours, 9.30 to 3.30. Closes Saturday at 12.

Thomas B. Meehan Co,  
Dresher, Penna.

Gentlemen:—

I think perhaps you may like to hear from your car load of roadside trees shipped to me at Pomfret, Conn., last spring. They have proven entirely satisfactory in every way, and I wish to again thank you for care in selection and handling of them.

Very truly yours,  
JAMES H. BOWDITCH.

## Shade Tree Commission.

CITY OF EAST ORANGE, NEW JERSEY

Aug. 24, 1914.

Thomas Meehan & Sons,  
Dresher, Pa.

Gentlemen:-

I am sending you some photos I have just lately made of the Yellow-twisted Lindens, as they will convey to you the true appearance of these trees better than anything I can possibly say. The trees were furnished by you and planted in the Fall of 1911, on Kenwood Place. There are seventy five trees, in perfect condition, not having lost a single tree. The trees are very uniform in size and make a beautiful showing, and I predict that this will be one of the most beautiful streets in East Orange.

Yours very truly,  
(Signed) Ernest H. Bennett,  
Supervising Foreman.

The Robinson Press, Hatboro, Pa.

Office of City Forester, Baltimore, Md.

June 17th, 1915.

Thos. Meehan & Sons, Dresher, Penna.  
Gentlemen:—

In the Spring of 1908 our Park Board purchased of you some 600 European Lindens of 3 to  $3\frac{1}{2}$  inch caliper. In 1911 they bought from you another lot of 326 trees of same variety and size. These trees were planted on Charles Street (extended) between 29th Street and University Parkway, and during the past four or five years I have had the opportunity of watching their development. The loss in this planting has been practically negligible and the growth of the trees has been altogether satisfactory. I consider this tree an admirable one for street and park planting, and that it's good points place it in a class above the average of our shade trees. I am so pleased with the species that I have used it in the planting of several of our fine streets during the past few years. I have every reason to continue my faith in the trees and hope to use some more of them as our funds here will permit.

Very truly yours,

R. BROOKÉ MAXWELL, City Forester.
